# YU YU AUNG

## FULL-STACK SOFTWARE ENGINEER

Thanlyin, Yangon, Myanmar | +959768199811 | yuyuaungayy@gmail.com | GitHub: github.com/yu-yu-aung | LinkedIn: linkedin.com/in/yu-yu-aung-38b462235 | Portfolio: yuyu-aung.vercel.app

## PROFESSIONAL SUMMARY

Full-stack software engineer experienced in building scalable web applications, designing intuitive user experiences, and integrating backend services. Combines software engineering fundamentals with practical knowledge of AI/ML, database management, and modern deployment workflows.

## TECHNICAL DOMAIN & CORE COMPETENCIES

- **Frontend Development** (React, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS)
- **Backend Development** (PHP, Laravel, REST APIs, MySQL, PostgreSQL, MongoDB, Supabase )
- **AI & Machine Learning** (Python, FastAPI, Neural Networks, CNNs, Machine Learning Fundamentals)
- **DevOps & Tools** (Git, Docker, CI/CD, Cloudflare, Coolify, Vercel, Agile Methodology)
- **UI/UX** (Figma, Wireframing, UX Analysis, Product Design)

## FEATURED PROJECTS

**Ace of Data Company Presentation Website** – Company Presentation Website (https://aceofdata.org/ )

- Developed a responsive corporate website with multilingual support (i18n) and SEO optimization.
- Translated client requirements into a minimalist, user-friendly interface and successfully delivered the project.

**Athlix Gym SaaS** – Team Project (In progress)

- Leading a three-member development team in building a gym management SaaS platform, contributing to backend architecture, database design, and full-stack development.
- Developing modular management workflows and containerized development environments for the platform.

**Novio** – Online Writing Platform (https://novio-writing-app-mcmb.vercel.app/ )

- Developed a full-stack writing platform featuring authentication, story and chapter management, publishing, and image uploads.
- Implemented social features including follows, likes, comments, and notifications.

**Yolo26 Reverse Engineering** (git@github.com:yu-yu-aung/yolo26n_exploration.git )

- Investigated YOLO26 model architecture by examining network layers, module connections, trainable parameters, and biases using PyTorch.
- Explored model structure and the underlying components of deep learning-based object detection.

**Attendance AI with InsightFace** (In progress)

- Developed a camera-based student enrollment and facial recognition prototype using InsightFace embeddings.
- Designed an integration workflow connecting Python-based recognition services with Laravel student management and attendance records.

## PROFESSIONAL EXPERIENCE

**Full-stack Software Engineer - ROM Dynamics Co.Ltd.,** (*Jan 2026 - Nov 2026)*

- Develop user-facing interfaces and administrative features using Next.js and React.
- Build and integrate backend functionality with Laravel and relational databases.

**AI Engineer - Deep Blue AI Lab** (*Volunteer)*

- Explore machine learning and deep learning approaches, contributing to AI model development and experimentation.

**Frontend Engineer - MMS IT (***June 2025 - Dec 2025)*

- Build and refine interfaces using React, Next.js, and TypeScript.
- Work with Git, Docker, and deployment tools as part of the development workflow.

**UI/UX Designer - Brain Builders' Organization (***Feb 2025 - Aug 2025)*

- Create high-fidelity mobile UI designs and interactive prototypes in Figma.
- Apply usability principles and responsive design considerations to improve the overall user experience.

## EDUCATIONAL BACKGROUND

- Bachelor's degree in computer science - University of the People (California, USA)
  *March 2027*
- Associate's degree in computer science - University of the People (California, USA)
  *Apr 2024 - Apr 2026*
- B.Tech in Architecture - Technological University (Thanlyin, Myanmar)
  *2016 – 2019*

## LANGUAGES & SOFT SKILLS

- **Languages:** Burmese (Native), English (Professional Working Proficiency), Chinese (Professional Working Proficiency).
- **Additional Competencies:** Cross-functional Communication, Remote Collaboration, Problem Solving, Adaptability.
